

New Website Launched !

H Roberts are currently celebrating the launch of our new website:

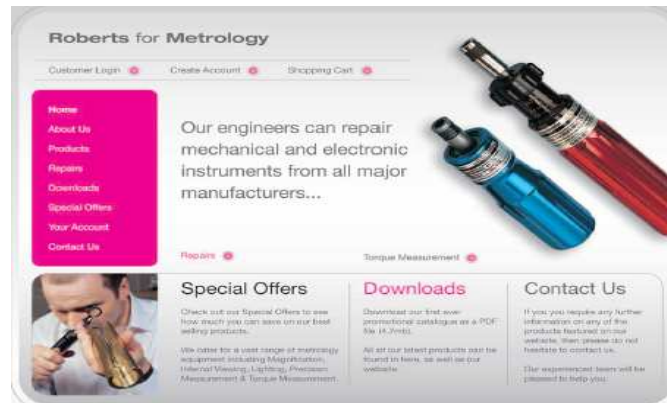

We have created a user friendly site which will allow users access to an extremely comprehensive catalogue of products, accessories and technical drawings. Users will also benefit from downloadable promotions and technical information.

Existing online customers can store their previous order information for quick reference and repeat orders.

If you are not a current online customer and want us to store your order history, an account can be requested at the click of a button. **NOTE:** You can still buy online without creating an account.

If you wish to create a credit account with H Roberts, Normal credit terms apply.

Please feel free to visit the new site at www.hroberts-di.com and check out our latest promotions.

Find Simon the H Roberts Dog

We have hidden Simon the H Roberts dog somewhere on our website. The first person to email us at simon@hroberts-di.com telling us where, will receive a Mitutoyo HR500-196-20 6inch caliper absolutely FREE.

The winner will be published in our next newsletter.

LET THE SEARCH BEGIN.

Experts on the Road !

H Roberts have recently employed the services of Karl Brown as 'Area Sales Engineer'.

Karl started work as a CNC operator progressing to CNC programmer and shift leader for the sub-contract manufacturing company Phoenix Manufacturing (Pegmount LTD) in Tamworth, Staffs where he remained for 14 years before making the move into a commercial sales role.

His first sales role was with the German distribution company 'Hoffmann Group-Perschmann'. This role introduced Karl to the sales environment, selling consumables back into the industry in which he started.

Moving on from Hoffmann Group, in 2007 Karl started working as the Midlands Area Sales Manager for TESA Technology (part of the Hexagon Metrology group of companies). This increased his knowledge of metrology applications, products and solutions.

Karl's engineering experience and metrology knowledge makes him a valuable asset to our business and we would like to welcome him to the team!

Allen Vanguard Products !

Above:
M7 Bench
Magnifier

H Roberts have recently become the sole distributor of Allen Vanguard products within the United Kingdom.

This will allow H Roberts to offer our customers reasonably priced, top quality products with exceptional delivery times. If you have any need for Internal viewing equipment such as bore viewers and endoscopes then please don't hesitate to contact us or visit our website.

Standard gage

**"Top
quality
products
at
AMAZING
prices"**

We are now stockists for the new Standard Gage Range of Tools and instruments.

Standard Gage offer effective measuring equipment at affordable prices. The entire range is available on our website www.hroberts-di.com

We have just obtained a Standard Gage Visual 250 machine and are ready to give demonstrations to any interested customer

Right: The
Standard
gage
Visual 250

Introducing.....The Standard Gage Visual 250

Ultra quick, accurate and flexible optical measuring has never been so affordable....until now!

3,9 micron MPE, 250/150/200mm X/Y/Z measuring volume.

Indexable, manually operated zoom cell (0.7x up to 4.5x)

Episcopic (top) and Diascopic (bottom/profile) illumination as standard (both cold source LED)

Laser pointer for locating exactly where the optics are concentrated on very small features.

Dell desktop PC running TESA-Vista software.

If you have a shadowgraph in your workshop or inspection room and you need increased accuracy, reliability and function then why not see how the Visual 250 compares both on price and performance.

New Roberts Major Calipers

Roberts Dial and Digital Major Calipers are designed to measure many forms. Ideal for sheet material, girders, pressings, pipes, forgings, castings and many difficult to access components. A choice of measuring contacts are available for each caliper. Visit us at www.hroberts-di.com to view the entire Major Caliper Range.

If a standard caliper is not suitable for your particular application we are able to design and manufacture, here at Roberts, bespoke calipers. Specials are our speciality.

Still the Best for Bespoke Items

"Here at H Roberts we know that we are, and always will be the best choice for the manufacture of bespoke metrology equipment"

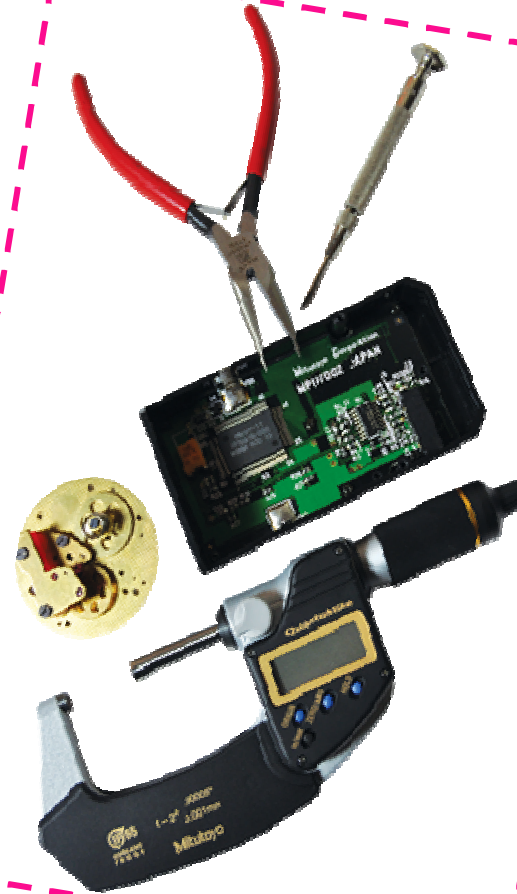

Bespoke items:

Our machine shop facility and skilled engineers enable H.Roberts to modify or manufacture measuring instruments to customer's specific requirements. Bespoke items are our speciality, from design to manufacture; our service is key throughout the manufacturing and associated trades.

Repairs:

If your company has a need for a quality repair service at a competitive price then you will be pleased to know that H.Roberts' repair workshop is equipped to deal with a vast range of metrology equipment. Our skilled technicians are capable of repairing mechanical and electronic measuring instruments from all major manufacturers.

Our stocks of spare parts, obsolete and current, number in the thousands enabling a fast and economical turnaround. All equipment is calibrated in our laboratory and 'in-house' or UKAS certificates can be issued on request.

If you have any questions or queries then please don't hesitate to contact us using the information below. One of our experienced staff will be happy to help you.
